

SRI HARIHARA SUBRAMANIAN J

I'm always eager to learn new things and think outside the box. I enjoy making edits and refining my work, and I apply what I learn with accuracy. I'm naturally drawn to mind games and logical challenges, which help sharpen my problem solving skills. When concepts are explained clearly, I pick them up quickly and put them into action.

EDUCATION

K.R. COLLEGE OF ARTS & SCIENCE, KOVILPATTI

BSC Computer Science
